EXPERIENCE

GEORGIA DEPARTMENT OF COMMUNITY HEALTH (DCH) Atlanta, Georgia
Cybersecurity Graduate Intern May 2023 - July 2023

- Applied DevOps, CI/CD, and AWS infrastructure to support secure and scalable software development and deployment.
- Testing use cases to move from manual deployment to automated deployments via AWS Developer Tools.

MACQUARIE GLOBAL SERVICES PVT. LTD Gurugram, IN
DevSecOps Engineer - Executive Lead (Full-Time) March 2019 - July 2022

- Onboarded various types of Application Connectors (200+) including Active Directory, CSV (Delimited File), Microsoft SharePoint, legacy applications, SCIM 2.0, and other custom connectors to reduce manual data management.
- Led operations for various business teams to optimize performance and decommissioned over *2k applications* from the SailPoint IIQ environment.
- Assisted and advised dev teams across Business Unit to comply with SOC reports.
- Monitored and controlled server Health checks during offline hours, created custom rules & reports for quick data fetch, and platform upgrades from 6.3 to 7.1, 7.2 to 8.1p1.
- Daily risk score analysis for the legacy applications and configured a custom weekly report for the same.

TCS - TATA CONSULTANCY SERVICES New Delhi, IN
DevSecOps Engineer (Full-Time) July 2017 - February 2019

- Integrated with O365 products to onboard *10k* users.
- Assisted with the setup of the SailPoint IIQ Policy server on *4 environments* (Dev, QA, UAT, and Prod).
- Worked on the Build-Map rule, configured SSO for SailPoint using PingFed, and connected with various applications endpoints using Web Services application for quick user and access provisioning.
